

“There will be no security for America or our world unless we take all steps necessary for nuclear disarmament. The measure that I introduced, H. Res. 373, calls on President Bush to ‘step up to the plate’ and lead the world by ensuring America’s fulfillment of the Non-Proliferation Treaty (NPT) and reducing with the goal of eliminating America’s nuclear arsenal.” - Representative Lynn Woolsey

Dear Representative _____,

As your constituent, I call on YOU to “step up to the plate” by co-sponsoring H. RES. 373, “The Nuclear Nonproliferation Treaty Commitments Act,” introduced by Congresswoman Lynn Woolsey. H. Res. 373 recognizes that “counterproliferation strategies based primarily on unilateral use of force, outside the framework of international organizations and agreements, are likely to lead to the disintegration of existing arms control and nonproliferation mechanisms and a renewed, more complex arms race.” H. RES. 373 asks the President to explain the White House’s failure to comply with nuclear arms agreements and UN resolutions regarding nuclear disarmament. And it provides a smart, comprehensive, alternative program to “protect and advance human, national and global security.” H. RES. 373 calls on the President to (partial list):

- Declare unconditionally that the United States will not use nuclear weapons first;
- Initiate and conclude multilateral negotiations on sweeping, verifiable and irreversible steps by nuclear weapons states to eliminate nuclear weapons and their delivery systems;
- Terminate all efforts aimed at enhancing the military capabilities of the U.S. nuclear arsenal;
- Terminate the declared U.S. policy of preventive warfare as a response to WMD; and
- Support initiatives and negotiations to ban weapons in outer space.

Thank you for your timely response. _____
Signature (note return address on other side)
